I value uber service and use it often. I feel that it is a safer, cleaner, and more reputable option compared to the typical yellow cabs in charleston. The service is convenient, easy to use, and offers fair pricing. I hope that uber will continue to be a transportation option in our area.

Cordially,

**Subject:** SAVE UBER

Hello,

I am writing to explain to PSC why Uber needs to stay in the state of South Carolina and especially in Columbia, SC. I am a female student at USC and frequently use Uber to take quick, safe rides downtown to bars and to other functions. As a female, taking cabs alone can be frightening and sketchy. Normal cab drivers can be sexual and inappropriate whereas an Uber driver (since there is a background check) is respectable and makes sure I arrive safely at my destination. Uber is ideal for college kids and adults who need a safe "taxi" ride somewhere. I do not always carry cash on me, for that is also not safe while at bars--so Uber allows for prepaid with a credit card. This is also ideal.

Please consider these statements before choosing to end Uber. As a college kid, this is how my parents would like me to travel safely around the city when consuming alcohol. It is an alternative to drunk driving--and also Uber is more reliable for pick ups and drop offs.

Thank you.

BK

I frequently visit Charleston on business and have used Uber on many occasions in the past year. I have found that they provide excellent, responsive service and are more affordable than the local taxi services in Charleston. I use Uber in my hometown of Atlanta and everywhere I travel. I have never, ever had a bad experience with Uber . . . I wish I could say the same about taxis.

Don't let the taxi lobby – an entrenched cartel – steer consumer policy in opposition to the free market and consumer preferences. Please don't shut Uber down in South Carolina. Thank you.
